NEW Products!

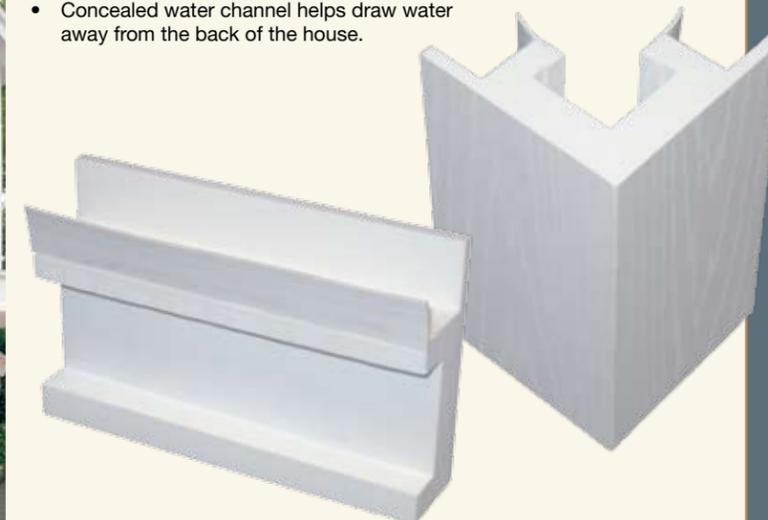

Mid-America has the solutions for your installation needs

NO PAINTING EVER REQUIRED AGAIN!

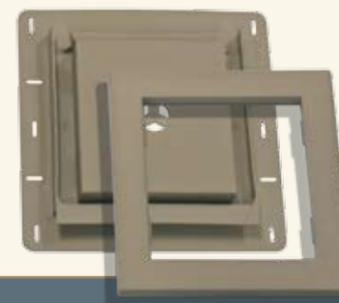

IQ™ Trim Boards by Mid-America are made from cellular PVC and provide a finished appearance with the installation of Fiber Cement and other siding products. A patented AquaFlex™ fin offers an important water management feature because it helps to prevent water from running behind the siding panel. See page 45 for more information.

- The acrylic based cap sustains our color, will not yellow. Backed by a fade warranty.
- The largest color pallette in the industry.
- Ease of installation – built in J-Channel.
- Patented water management feature.
- Concealed water channel helps draw water away from the back of the house.

MOISTURE CONCERNS?

Mount Blocks and Utility Vent for Fiber Cement Siding offer a look that is unmatched in the industry. These products feature a drain channel around the block or vent that diverts water to the front face of the siding. See pages 26-27 for more information.

FOUNDATIONMASTER™ — FIXED LOUVER

- Molded-in screen for insect protection. Wire screen available.
- Available in all of our popular foundation vent colors.
- Louvers will not close to insure continuous air flow.
- 50 sq. in. net free area.

See page 37 for more information.

Louver Shutters

Standard Cathedral Open Louver Master Shutter®

- Flat Panel and Classic Dentil Profiles
- Solid, one-piece construction.
- Keystone shipped with the header for optional application.
- Can be cut in center for special sizing in the field. Keystone would be used to cover the cut.
- J-Channel Back-Plate provides a flat mounting surface for headers.

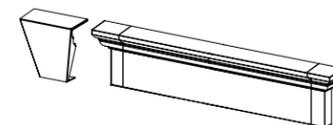

6" CUSTOM CUT HEADERS

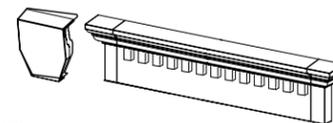

- 6" Classic Dentil or Flat Panel profile headers are available in 1/4" increments from 24" - 144".
- Custom Cut Headers are non-returnable.

CUT AT THE ENDS WITH END CAPS WELDED IN PLACE.

Keystones included for optional installation.

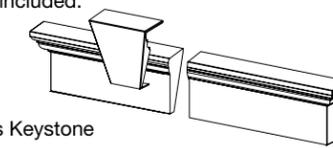

6" Flat Panel, welded-on End Caps
 Available in 1/4" increments from **24" - 73"**

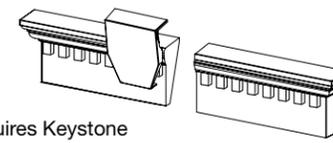

6" Classic Dentil, welded-on End Caps
 Available in 1/4" increments from **24" - 73"**

CUT IN CENTER, NOT WELDED.

Requires use of Keystone which is included.

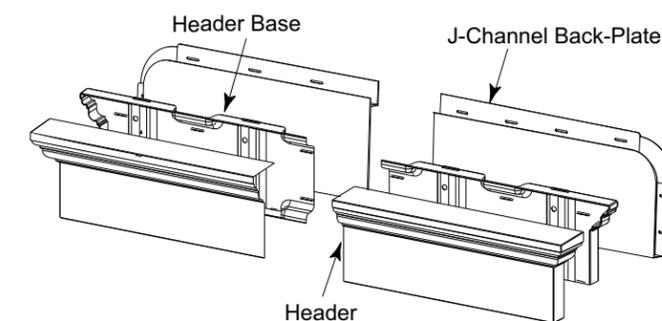

6" Flat Panel, cut in center, requires Keystone
 Available in 1/4" increments from **24" - 144"**

6" Classic Dentil, cut in center, requires Keystone
 Available in 1/4" increments from **24" - 144"**

J-Channel Back-Plate for Headers and Pilasters

- Provides a flat mounting surface for headers and pilasters.
- Built-in J-channel helps prevent water penetration.
- Can be ordered in all standard and custom header sizes.
- Pilaster Back-Plate is 96" in length and can be cut to desired size. (see page 21)
- Back-Plate must be ordered and shipped separately.
- Note J-Channel Back-Plates available in white (001) and paintable (030) only.

9" Window Headers

9 Colors	001, 002, 008, 023, 028, 034, 078, 117, 123 and paintable (030). Ask about other colors that are available with a 25 unit minimum.

New Mount Block for Fiber Cement Siding

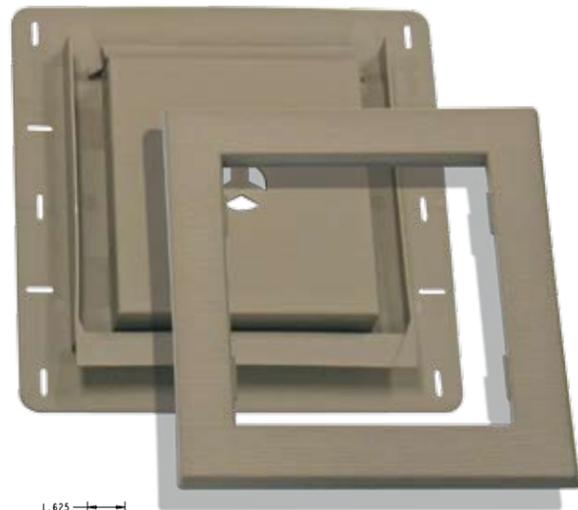

FEATURES

- Most realistic graining look.
- Water is diverted through drain channels to the front face of the siding.
- Available in the largest color offering.
- Multiple locking positions accommodate the thickness of all fiber cement panels.

Snap-on trim ring hides the cut ends of siding.

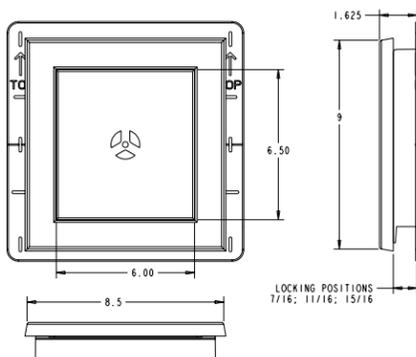

Moisture is the greatest threat to the long-term performance of a home. It can damage the building materials and can lead to an unhealthy living environment. These new blocks help to eliminate the retention of moisture in the exterior home.

Gable Vents

Gable Vents offer Performance, Style, Versatility and Protection

PERFORMANCE

Mid-America Gable Vents offer key features that have become the benchmark in the industry. Installation is easy with our wide nailing flange, leveling lines, adjustable stop gauge and snap-on trim ring. Our patented snap-on trim ring hides rough cuts and reduces installation time, while providing a finished appearance once the vent has been installed.

Each gable vent has more Net Free Ventilation Area for optimal venting than industry standards. It's backed by a Limited Lifetime warranty too!

STYLE

Mid-America gable vents provide added architectural detail with their wood grain finish and sharp distinctive features. Choose from the most styles, sizes and colors in the industry to accent your home beautifully.

Gable vents are also available in a paintable option for a custom look. These vents are easy to paint with a primer and acrylic paint.

VERSATILITY

Installation is easy on all types of siding including vinyl, wood, fiber cement, stucco, brick or stone. Our gable vents work well in both new construction and remodeling applications.

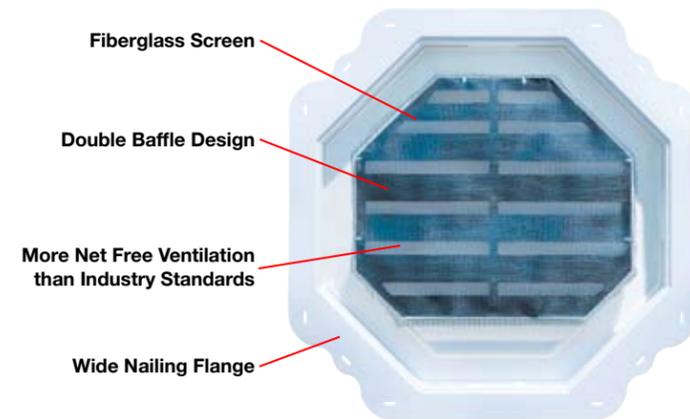

You also have the option of installing gable vents with a decorative application, when a functioning vent is not required. You can either install the vent over a substrate without cutting a vent hole or use the Non-Functional Gable Vents with closed louvers.

PROTECTION

Our vents feature a double baffle design that blocks a direct view into the home and provides added protection against wind-driven rain and snow. The sealed-in fiberglass screen offers complete insect and animal protection.

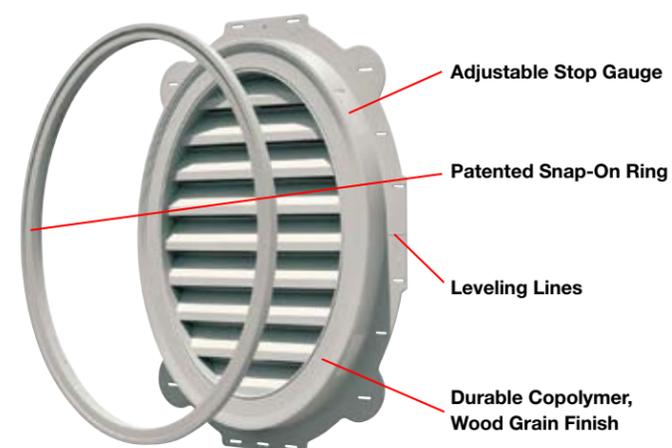

BACK SIDE VENT FEATURES

Gable Vents

FRONT SIDE VENT FEATURES

Standard Gable Vents

Choose from eight styles and the most color choices in the industry. Our full color offering will match dozens of manufacturers' siding colors.

Our Designer Series Gable Vents offer a wide trim ring that gives a bold and more dramatic look installed. For the 30" Round Gable Vent with Keystones, the entire face is one piece including the vent, trim ring, and keystones. This face snaps onto the faceplate. The 28" Round Gable Vent without keystones, as well as all other gable vents, are installed with our patented snap-on trim ring. No matter which vent you choose, there will be a finished appearance once the vent has been installed.

Some styles can be modified to add keystones. Just look for the "K" after the size for availability.

"Classic Style" vents vary from other standard vents because the frame is slightly wider and has more detail.

Style-A-Vent™ Gable Vents

STYLE-A-VENT GABLE VENTS

- Style-A-Vents & Specialty Vents are only available in White (001) and Paintable (030). Can not combine different vents or colors to equal the 25 piece minimum.

CUSTOM RECTANGLE AND SQUARE VENTS

- Heights are available in specified increments based on the number of louvers.
- Rectangular and square vents available in virtually any width from 12" to 96".
- Locking Positions .625", .875", 1.125", 1.375"

CUSTOM TRIANGLE VENTS

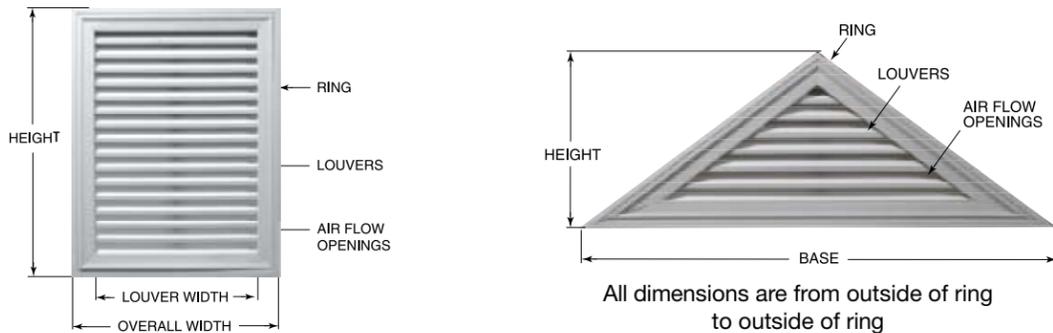

- Heights are available in specified increments based on the number of louvers.
- Locking Positions .625, .875, 1.125, 1.375

How to Figure Net Free Area for Rectangle/Square Vents

$$NFA = (\text{Width} - 7.12) \times (.70) \times (\text{Louvers} - 1)$$

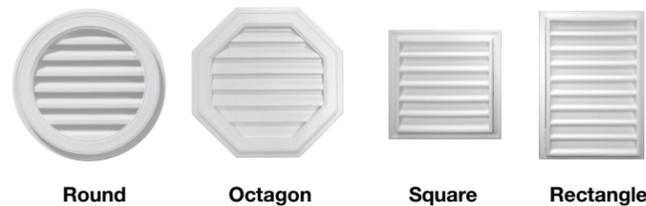

EXAMPLE: 34" (W) x 42" (H) Vent

34.00	Outside width
-7.12	Ring & frame width
26.88	Width of one louver (air flow opening)
26.88	
x .70	Height of one air flow opening
18.82	Area of one air flow opening (in sq. in.)
16	Number of louvers
-1	Uppermost louver does not provide air flow
15	
18.82	Area of one air flow opening (in sq. in.)
x 15	Number of air flow openings
282.30	Net free area (in sq. in.)

Non-Functional Gable Vents

- Ideal for applications where a functioning vent is not required.
- Closed louver design
- Can be installed directly over siding
- Simply trim the nailing flange and install the vent along the remaining edge.

NON-FUNCTIONAL GABLE VENTS

Available in White (001) and Paintable (030).

Packaged Five vents per box.

	Item #	O.D.	Depth	V/A Sq. In.	R/O	Locking Position

IQ™ Trim Boards

THE NEXT GENERATION IN CELLULAR PVC TRIM

IQ™ products have been engineered using Smart Materials to provide a level of performance and visual appeal that was previously unavailable. These products offer the Aesthetics, Performance, Water Management and Installation features that out-smart all other brands.

AESTHETICS

- IQ™ products have a durable acrylic based cap to provide superior weathering performance with no fading.
- First product in a wide spectrum of colors.
- The foam core color complements the trim's outer shell color to provide a professional appearance to exposed mitre cut edges.

PERFORMANCE

- The strong outer shell on IQ™ Trim Boards resists scratching and fading.
- Acrylic based cap protects white trim from turning yellow over time and dark colors won't fade.
- IQ™ is backed by a limited lifetime warranty.

WATER MANAGEMENT

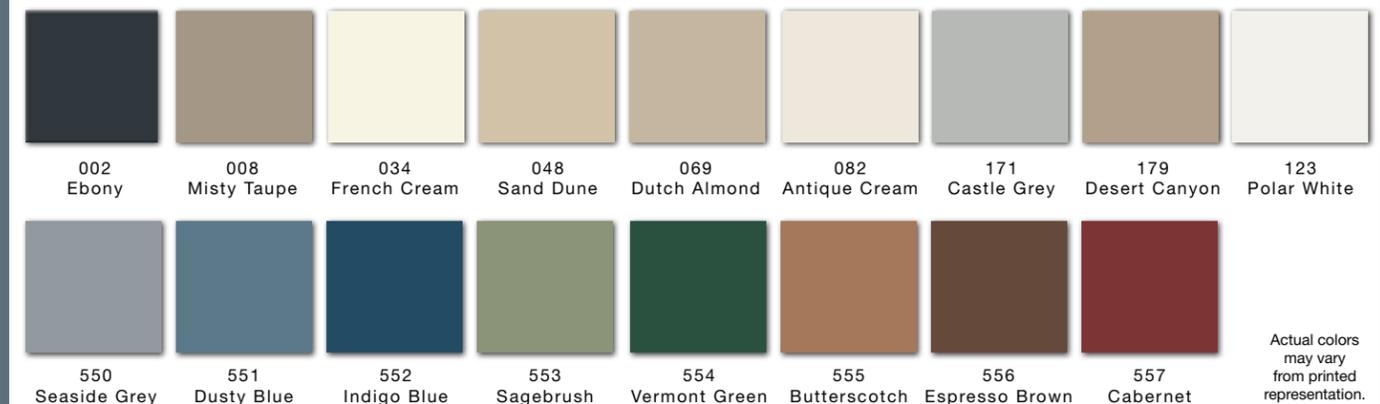

- IQ™ products feature the AquaFlex™ which works along with the integrated J-channel to direct water away from the face of the wall.
- *AquaFlex design is patent pending.

INSTALLATION

- The integrated J-channel on IQ™ Trim Boards provides easier installation than traditional trim board.
- The 1" pocket depth accommodates a variety of siding applications including Wood, Fiber Cement, Vinyl and Stone Veneer.
- IQ™ Trim and Corners are available in the following sizes:
Outside Corner: 1" x 4" x 10' and 1" x 6" x 10'
Inside Corner: 2" x 2" x 10'
Trim: 1" x 4" x 12' 6" and 1" x 6" x 12' 6"
 *Sizes are nominal.

AVAILABLE IN 16 COLORS PLUS WHITE

Actual colors may vary from printed representation.

Specialty Shapes

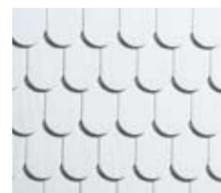

- Choose from six classic shapes.
- 6" exposure.
- Easy to install with 60" panels.
- All Specialty Shapes are available in White (123) and the Round Shape is available in seven additional colors.
- The Transitional panel is used to transition from siding to Shapes.

Roof Ventilation

Rugged Crush Proof Construction

with nailing supports and structural ribs designed to ensure a smooth straight roofline.

Durable Copolymer

makes our ridge vent one of the strongest in the industry. Withstands dents from tree branches or hammer blows and resists cracking, regardless of temperature. Comes with a 40-year limited warranty.

Self-Aligning Interlocking Ends

help to provide quick alignment and ensure that no weather or insects can enter between venting units.

Built-In End Caps

improve weather resistance, simplify installation and adjust to roof pitch. Ship-Lap Design allows for expansion and contraction during temperature extremes.

Water, Snow and Insect Resistant

patented computer-designed "internal baffle system" rolls back rain and snow.

Insect, Leaf and Pine Needle Barrier

Filter inside the vent keeps out insects, leaves, pine needles, etc.

RIDGEMASTER® & RIDGEMASTER® PLUS

HIPMASTER®

HOW TO FIGURE PROPER VENTILATION

Industry Standard for Proper Ventilation:

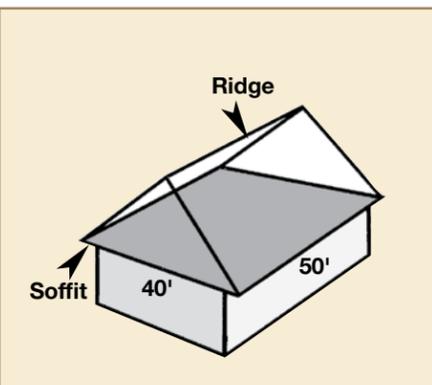

1 sq. ft. of ventilation for every 300 sq. ft. of attic space with 50% in ridge and 50% in soffit.

RidgeMaster, RidgeMaster Plus & HipMaster:

12.228 sq. in. per lineal foot—Net Free Ventilation

EXAMPLE: 2,000 SQ. FT. ATTIC

- 40' x 50' = 2,000 sq. ft. attic.
 - 2000 sq. ft./300 sq. ft. = 6.67 sq. ft. (total ventilation req.)
 - 6.67 x 144 = 960 sq. in. (conversion to inches)
 - 960 sq. in. = 480 sq. in. (ridge) + 480 sq. in. (soffit)
- A 50' ridge with RidgeMaster installed equals approximately 600 sq. in. of ventilation. (more than industry standards)

Roof Ventilation

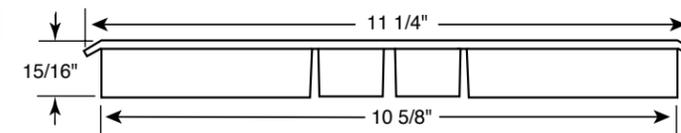

11" RIDGEMASTER®

For roof pitches from 3/12 to 12/12.

Packaged 40 lineal ft./box (ten 4' pieces)—18 boxes/skid.

Features Patented internal baffle engineered to keep blowing snow and rain from entering. Also used for fascia vents.

Item # 00 07 0000 002

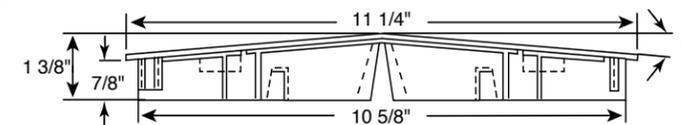

11" RIDGEMASTER® PLUS

For roof pitches from 3/12 to 12/12.

Packaged 40 lineal ft./box (ten 4' pieces)—21 boxes/skid.

Features Patented added pitch shows more shingle profile and less vent opening. Easily adapts to a Peak Vent or Flash Vent. Patented internal baffle engineered to keep blowing snow and rain from entering.

Item # 00 07 1100 002

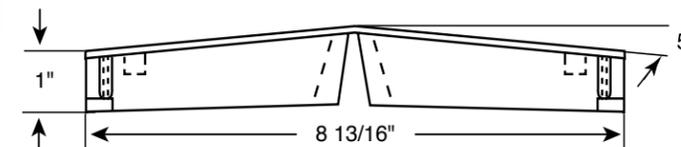

9" RIDGEMASTER® PLUS

For 9" ridge.

Packaged 40 lineal ft./box (ten 4' pieces)—18 boxes/skid.

Features Patented added pitch shows more shingle profile and less vent opening. Easily adapts to a Peak Vent or Flash Vent. Patented internal baffle engineered to keep blowing snow and rain from entering.

Item # 00 07 0900 002

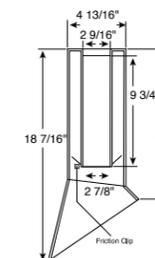

CAPMASTER®

Colors Dark Grey (018), Light Grey (017), Black (002), Brown (010)

Use for: All 3" & 4" vent pipes. Adapts to all roof pitches from 3/12 to 12/12.

Packaged One/box.

Item # 00 07 0007 ***

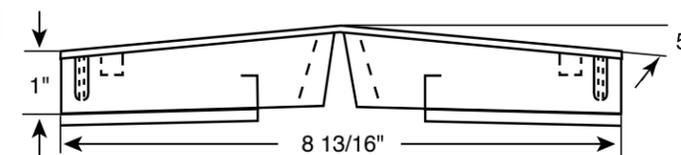

9" HIPMASTER®

For 9" hip and ridge.

Features Patented triple baffle system engineered to keep blowing rain and snow from entering. Can be joined with RidgeMaster Plus.

Packaged 40 lineal ft./box (ten 4' pieces)—18 boxes/skid.

Item # 00 07 0911 002

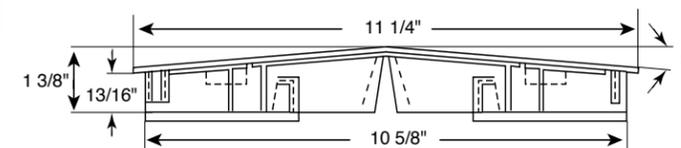

11" HIPMASTER®

For roof pitches from 3/12 to 12/12.

Packaged 40 lineal ft./box (ten 4' pieces)—18 boxes/skid.

Features Patented triple baffle system engineered to keep blowing rain and snow from entering. Can be joined with RidgeMaster Plus.

Item # 00 07 1111 002

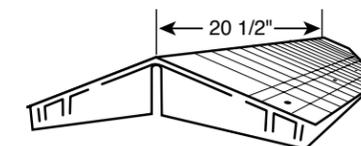

HIPMASTER® STARTER PIECE

Blends HipMaster into roof line at bottom or top of hip.

Use for 11" HipMaster or 9" HipMaster.

Packaged Four 20.5" pieces/box.

Item # 00 07 0004 002

Color Program

SHUTTER COLOR PROGRAM

STANDARD SHUTTERS

Standard Cathedral Open Louver Master Shutter® and Standard Williamsburg Raised Panel Master Shutter®

20 Colors 001, 002, 004, 008, 009, 010, 018, 023, 027, 028, 036, 078, 117, 122, 166, 167, 282, 283, 284, 285 and paintable (030)

Custom Color Program:

Master Shutter series can be produced in any color that Mid-America manufactures. This program is designed to provide color options on large scale projects. Minimum order size of 100 pairs per color, per size. Different size shutters cannot be combined to achieve the minimum order. Custom Color orders have a 4 week lead time. Custom Color orders are non-cancelable and non-returnable. An upcharge applies to Custom Color orders, please see price book for more information.

Standard Board-N-Batten™ Shutters

20 Colors 001, 002, 004, 008, 009, 010, 018, 023, 027, 028, 036, 078, 117, 122, 166, 167, 282, 283, 284, 285 and paintable (030).

CUSTOM SHUTTERS

Custom Style-A-Louver™ Shutters

Ordering

ITEM NUMBERS MAKE ORDERING EASY!

Item Numbers were designed to simplify the ordering process. They eliminate confusion and allow for orders to be processed quicker. The exact style, size and color are clarified within each number.

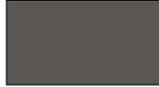

Most Item Numbers are 11 digits long. Here's an example of a product and its corresponding item number:

Item Number	Description
00 01 1425 028	14½" x 25" Cathedral Open Louver Master Shutter® in Forest Green

This is how the number is broken down:

- 00 01 1425 028 The first two digits indicate the category number. Most Item Numbers begin with "00".
- 00 01 1425 028 The next two digits signify the product category. In this case, "01" stands for "Cathedral Open Louver".
- 00 01 1425 028 The following four digits are the description number. In this case, "1425" represents the size 14½" x 25".
- 00 01 1425 028 The last three digits are the color number. "028" is the number for Forest Green.

If a product is available in more than one color, the color number will be shown with 3 asterisks (i.e. 00 01 1425 ***). Simply insert your chosen 3-digit color number in place of the asterisks. Products that are only available in one color will have the color number completed for you (i.e. 00 97 0642 002).

		
White 001	Black 002	Wedgewood Blue 004

TRY OUR Home Exterior Visualizer On-Line!

See how products from Mid-America Siding Components can enhance the appearance of a home right on your computer screen.

Visit our web site, www.midamericacomponents.com, click on the "Home Exterior Visualizer" link.

Choose from two options:

- 1) Visualize how our products would look if they were installed on a variety of houses. Select a house and choose the products and colors that you want to add.
- 2) See how our products would look installed on your home. All you need is a digital house picture and our visualizer tool. Just follow the easy instructions.
