### Style and Beauty

The nine (9) basic door styles when added to the doorlight possibilities provide more than 200 choices. This combined with Albany Door's 25 paint colors for traditional smooth skins means almost 20,000 options.

Castlegate's Oakgrain steel skins further expand the possibilities. Oak grain is a deep grain pattern coined into the 24-gauge steel increasing the strength and dent resistance while providing the look of wood.

Albany Door can apply their four stage staining process to the Oakgrain or paint the Oakgrain to match virtually any decor.

Doors can be combined with Albany's full offering of sidelights and transoms to create unique entrances.

### Exceptional Lead Time & Packaging

Albany Door Company's normal lead time is easy to remember. We call it 1, 2, 3. In most instances, primed doors are delivered in less than one week, two weeks on painted doors and three weeks for stained doors.

All prefinished doors are boxed to assure they get to the job in excellent condition. Replacement doors literally float on foam blocks inside the box while new construction doors are protected by the jambs. Everything is included to help make your job go smoothly.
